| Gebied:       | September 2020 (publicatie "Climate Change Mitigation and Your Portfolio: Practical tools for investors")   |
| Verplichting: | Nee, vrijwillig   |
| Gebaseerd op: | <p>ILN is an open and collaborative platform for leading investors interested in addressing sustainability and long-term growth. As a direct outcome of Canada's 2018 G7 presidency, ILN focuses on concrete actions and global partnerships.</p> <p>ILN members are committed to providing resources, expertise and networks to help address three global challenges: climate change, the lack of diversity and inclusion in the investment industry, and the infrastructure gap in developing economies.</p> <p>Its aim is to accelerate collective action and offer robust, practical solutions.</p> |
| Informatie:   | The report aims to help colleagues and peer investors better understand the implications of decarbonization pathways that align to the Paris Agreement's target of limiting the increase in average global temperature to 1.5 °C. While there are many emissions pathways and great uncertainty about which one the world will ultimately follow, the focus is on a decarbonization pathway in line with the Paris Agreement as a stress-testing scenario for investors.  |

## Wat doen pensioenfondsen?

APG en PGGM zijn, mede namens hun klanten, lid van ILN en hebben bijgedragen aan het rapport. Het rapport kan door pensioenfondsen en andere beleggers met name worden gebruikt als hulpmiddel bij engagement op klimaatverandering en energietransitie. Daartoe zoekt ILN onder meer de samenwerking met Climate Action 100+. Het rapport biedt handvatten om te beoordelen of de veronderstellingen en parameters van bedrijven die zeggen zich te committeren aan de doelstellingen van het klimaatakkoord van Parijs voldoende ambitieus en onderling consistent zijn.
