“SRD II establishes requirements in relation to the exercise of certain shareholder rights attached to voting shares in general meetings of companies. - **Transparency of institutional investors;**  
SRD II also requires member states to ensure that institutional investors disclose to the public how their equity investment strategy is aligned with the profile, the duration of their liabilities, and how it contributes to the medium to long-term performance of their assets.
- Asset managers and proxy advisors; and
- Remuneration of directors and related party transactions.” [\[Bron\]](#)
